VISION

To standardize the Leo community and to bring innovation and inspiration for a change within the community.

MISSION

Empower and expand Leo members within the Sri Lankan community with innovative ideas, leadership skills and commitment to discipline.

LEO NISAL DULMITH FLM

MULTIPLE DISTRICT PRESIDENT - LEOISTIC YEAR 2026/27
LEO MULTIPLE DISTRICT 306 – SRI LANKA & MALDIVES

Across Sri Lanka and the Maldives, the Leo Movement continues to provide young people with a platform to step up and lead.

At the absolute heart of this vibrant network is Leo Multiple District 306 Sri Lanka & Maldives, operating under the Leo Club Program of Lions Clubs International and bringing together 12 Leo Districts under one Multiple District. Bound by the core values of Leadership, Experience and Opportunity, Leos across the region are inspired to bring their enthusiasm into service initiatives that leave their communities better than they found them.

LMD 306 transcends its role as a structure that connects clubs and districts, rather a home for growth.

It gives young leaders a space to realize their potential by doing. A Leo may begin by showing up to volunteer, later take on a role within their club, then rise to lead a team and before long, find themselves leading the movement itself. This is how leadership becomes lived, not in theory but in the everyday acts of service and the friendships that form throughout.

A new chapter begins for LMD 306 in the Leoistic year 2026/27, under my leadership with the theme, "Lead for a Change," lighting the way. The message rings loud and clear:

leadership is not a title that stands alone but the compilation of action and vision.

It portrays the confidence to step forward, no matter how small the first step may seem because that very step could be the start of something truly extraordinary.

Supporting this vision are Immediate Past Multiple District President Leo Lion Rageesh Yogeswaran MJF PMAF

PFLM, offering seasoned expertise and Multiple District Vice President Leo Lion Sunera Naveed MAF FLM, who stands ready to drive the year's initiatives forward. Most importantly,

leading the backbone of the Multiple District are Multiple District Secretary Leo Lion Sajani Wijesuriya, Multiple District Treasurer Leo Lion Lasikumar Parameswaran and Membership Chairperson Leo Anjana Udesch FLM, whose talent towards administrative excellence and transparency will keep the year's plans firmly on track.

They are joined by a capable Executive Committee: Assistant Secretaries Leo Lion Sachith Lakshan & Leo Devinda Perera, and Assistant Treasurers Leo Lion Laxshan Arunasalam & Leo Peenaka Wedamulla, all ready to bring this year's vision to life.

Together, this team steps into a year rich with opportunity to strengthen the movement in order to support the 12 Districts in creating experiences that resonate far beyond individual projects. Their success will ultimately be reflected not only in Multiple District achievements but in the countless young Leos who are empowered to step forward and discover the leader within.

As the sun rises on this new chapter, one thing is certain. The future of LMD 306 is in capable, compassionate hands. Together, they are ready to write a story worth telling.

A new year. A new team. A movement that is determined to "Lead for a Change".

TURNING VISION INTO ACTION

Three bold initiatives. Three different avenues for impact. One shared purpose to Lead for a Change.

LASSANA SRI LANKA

What if a cleaner Sri Lanka begins with one simple act?

Lassana Sri Lanka, an environmental sustainability initiative of Leo Multiple District 306 Sri Lanka & Maldives, aims to reach communities across every district through waste-management workshops, dustbin distribution, and community cleaning armies, and awareness initiatives.

The project will also encourage joint environmental initiatives with organizations and communities, while seeking collaboration with the Government of Sri Lanka to strengthen national environmental efforts.

Every great business begins with an idea, and with the right guidance, opportunity, and investment, that idea has the power to become a thriving reality.

Startup Studio by Leo Multiple District 306 Sri Lanka & Maldives is designed to discover Sri Lanka's most promising entrepreneurs through nationwide workshops and mentorship.

This journey will continue with a competitive platform where selected entrepreneurs can showcase their ventures, with outstanding winners gaining access to investors and million-rupee-level investment opportunities to transform their ambitions into thriving businesses.

LEO FM

A new frequency is ready to amplify the voices of a generation!

Leo FM, a Public Relations and Marketing initiative by Leo Multiple District 306 Sri Lanka & Maldives, will create a dedicated platform for Leos to explore announcing, hosting, podcasting, and creative communication.

Through engaging programmes, podcast series, and diverse opportunities, Leos will gain valuable experience while showcasing their talents, sharing ideas, and connecting with audiences across Sri Lanka.

LEADERSHIP BEYOND BORDERS

EXCLUSIVE INTERVIEW WITH

MAHENDRA AMARASURIYA
PAST INTERNATIONAL PRESIDENT

Q1 Every remarkable journey begins with a single step. Looking back, what inspired you to become a Lion, and did you ever imagine that it would one day lead you to the office of International President?

It was due to the persuasion of late Lion A. R. M. Zain considered to be the founder of Lionism in Galle and perhaps the Southern Province that I joined. But of course expecting to join a band of people who were committed to serve. I never imagined that one day I would become the Leader of this great International Organization.

Q2 As the first Sri Lankan to serve as International President, what did that achievement mean to you personally, and what message did it send to the world about Sri Lanka?

To me it was a tremendous personal achievement and a recognition of a little Country Sri Lanka in the World of Lionism. It sent a message to the world that Lionism was active and thriving in our little country.

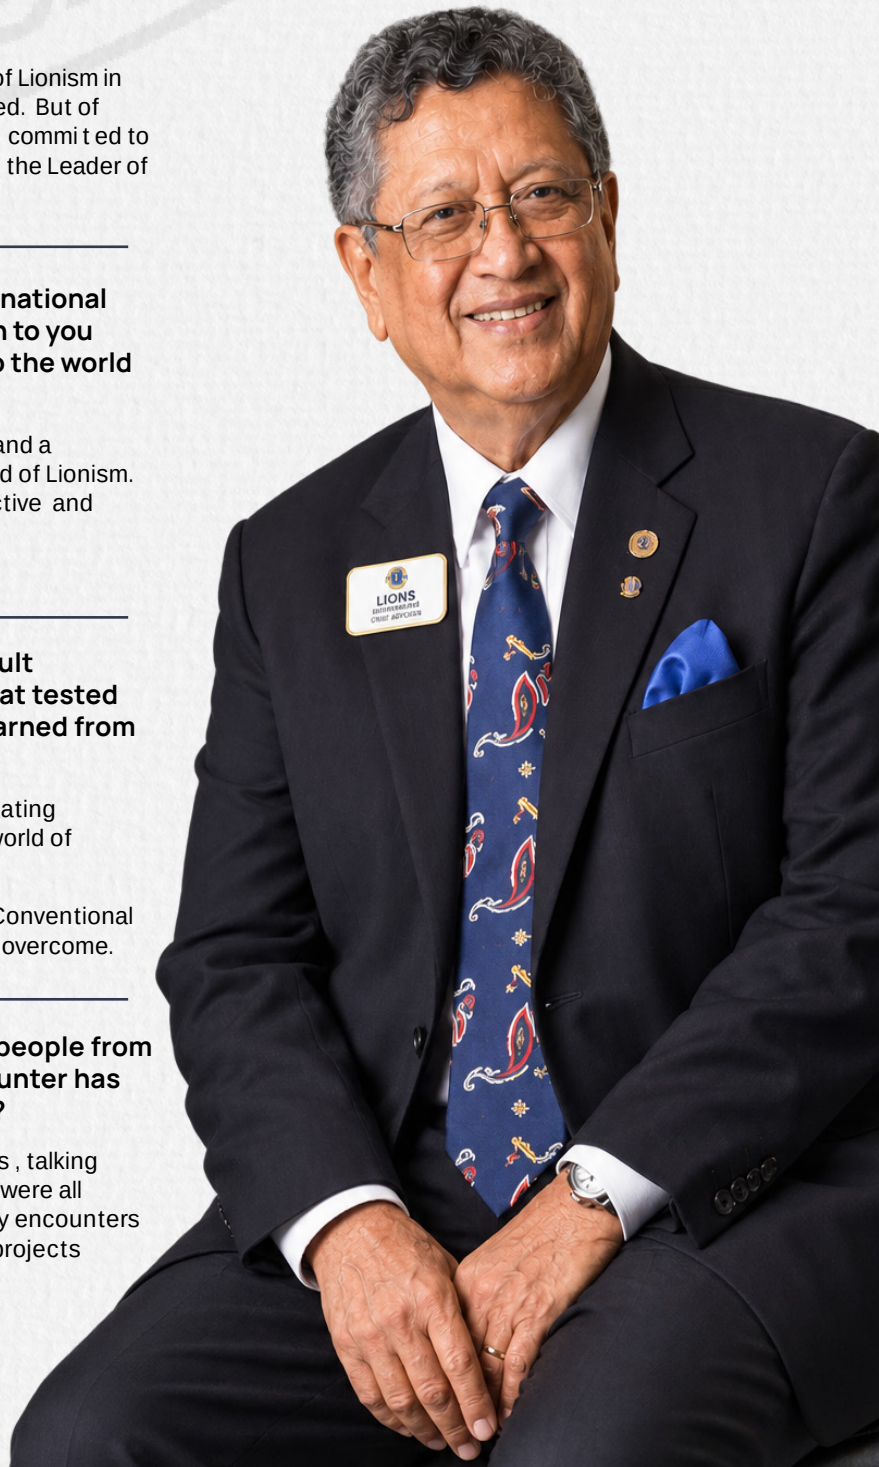

Q3 Leadership often means making difficult decisions. Can you share one challenge that tested your leadership the most, and what you learned from it?

There were many difficult decisions to make in creating a suitable program for participation of the entire world of Lionism. The fact that my theme

“Challenge To Change” was anathema to the Conventional Lions of the world was the challenge that I had to overcome.

Q4 Having travelled extensively and met people from diverse cultures, what experience or encounter has left the deepest impression on your heart?

It made me realize that people of different cultures, talking different languages and having different traditions were all ready to serve the less fortunate. There were many encounters as I witnessed some wonderful and unbelievable projects effectively implemented by Lions.

Q5 After witnessing service across the globe, what is the greatest lesson humanity has taught you?

Although, people may be egoistic and mainly interested in their own welfare, there were many people in every society who appreciated the plight of the unfortunate and were interested in making an impact to improve their livelihoods.

Q6 What role do you believe Leos should play in shaping the future of Lions Clubs International, and what qualities do you hope to see in the next generation of Leo leaders?

Leo's are playing a very important role in the future of Lionism as we believe that they constitute an important force of young people who will hopefully join and give leadership to the Lions in the future.

Q7 The Mahendra Amarasuriya Fellowship has become one of the most respected recognitions in Sri Lankan Lionism. What inspired its creation, and what vision did you hope it would achieve for future generations?

I founded the Lanka Lions Foundation as I realized that although every project carried out by the Lions was with the intention of improving the conditions of the poor and the deprived, there was no concentrated attempt to alleviate poverty by empowering the poor to enable them to rise from the state of poverty by granting a helping hand to develop themselves. I hope that my successors will continue to develop new strategies and safeguard the funds of the Foundation to help more and more people in the future.

Q8 Outside of Lions, what experiences, people, or interests have shaped you the most as a person, specially the support of your family?

Both my parents who were involved in social service activities, especially my mother who had a tremendous influence on me, made me aware that people who are born into good backgrounds had an obligation to assist the underprivileged, which is a concept preached by all religions. My Buddhist background and interaction with religious dignitaries also contributed towards my involvement in assisting the underprivileged.

Q9 If every Lion and Leo reading this interview could remember only one message from you, what would you want that message to be?

My message to every Lion and Leo is that anything is possible. If you are committed to achieve your aspirations. Of course, they should be achieved with absolute integrity and honesty, and without harming others.

YOUR LEO PIN IS A PASSPORT

To Leadership. To the World. To Opportunities You May Never Have Known Existed.

For many, the Leo journey begins with a simple decision to join a club, serve the community and make new friends. Soon, it becomes projects, meetings, leadership roles, conferences and unforgettable memories.

But what if your Leo journey could take you much further?

Beyond your club, district and even your country lies a world of opportunities through the Leo Club Program, Lions Clubs International and Lions Clubs International Foundation (LCIF). From international travel and leadership development to project funding and global representation, being a Leo can open doors that many members may never realize are available.

Here are some opportunities worth discovering.

1

YOUR LEO JOURNEY CAN TAKE YOU AROUND THE WORLD

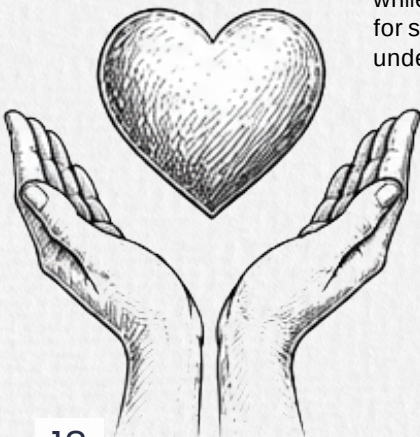

Imagine travelling to another country, living with a host family, experiencing a new culture and building friendships with young people from around the world.

Through the Lions Youth Camps and Exchange (YCE) Program, eligible young people can participate in international exchanges and youth camps. Exchanges typically provide several weeks of cultural immersion, while international camps bring young people together for shared experiences, friendship and cultural understanding.

For a Leo, it is an opportunity to discover that the Lions and Leo network extends far beyond national borders.

Your next Leo experience may not be in another district it could be in another country.

2

HAVE A GREAT SERVICE IDEA? THINK BIGGER.

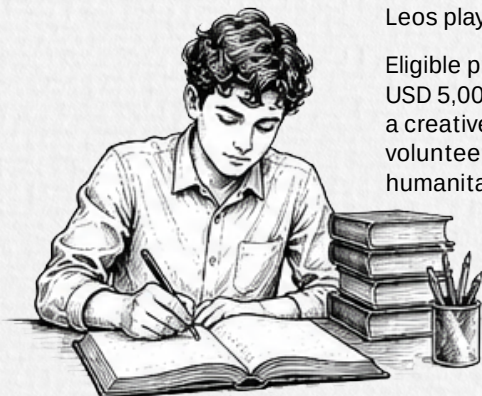

Sometimes Leos have extraordinary project ideas but limited financial resources to bring them to life.

The LCIF Leo Service Grant provides an opportunity for Lions districts and multiple districts working with Leos to seek funding for humanitarian service projects in which Leos play a direct role in planning and implementation.

Eligible projects can receive between USD 1,500 and USD 5,000. That creates an important possibility: a creative idea developed by a group of young volunteers can potentially grow into a much larger humanitarian initiative.

So when you identify a community problem, don't immediately ask, "Can our club afford this?"

Ask instead: "How big could this idea become?"

3

4

DEVELOP YOURSELF AS A GLOBAL LEADER

Leo is not only about serving others. It can also be a platform for developing yourself.

Leos have access to learning opportunities through the Lions Learning Center, covering valuable areas such as goal setting, public speaking, effective listening and conflict resolution.

There are also pathways for eligible Leos to participate in leadership-development experiences such as the Emerging Lions Leadership Institute (ELLI), while Leo-focused grant opportunities can help reduce financial barriers for participation in eligible leadership institutes.

These are skills that remain valuable long after a Leo meeting ends in university, employment, entrepreneurship and life.

REPRESENT LEOS AT THE INTERNATIONAL LEVEL

Your leadership journey doesn't necessarily have to stop at club, district or multiple-district level.

The Leo Club Program Advisory Panel gives Leos and Lions from around the world an opportunity to provide perspectives on the development of the Leo Club Program.

In fact, Lions International describes panel membership as the highest international office within the Leo Club Program.

Imagine beginning as a member of a local Leo club and one day contributing your ideas to conversations shaping the Leo movement internationally.

That possibility exists.

5

6

MEET THE WORLD THROUGH INTERNATIONAL LEO FORUMS

Leo forums create another gateway to the international movement.

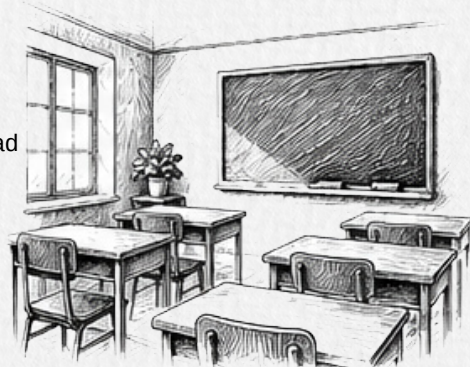

International and constitutional-area gatherings allow Leos to connect across borders, exchange ideas, experience different cultures and discover how young volunteers elsewhere are approaching leadership and service.

For Sri Lankan Leos, opportunities within the ISAME region India, South Asia and the Middle East can be particularly relevant.

One conversation at an international forum could lead to a friendship, collaborative project, professional connection or idea that lasts for years.

Because one of the greatest assets of this movement is something we sometimes overlook:

the network.

TAKE YOUR CLUB FROM LOCAL TO GLOBAL

A project may begin in one community, but its story does not necessarily have to remain there.

Lions International offers numerous awards and recognitions for Leos and Leo clubs, including the Leo of the Year Award, Leo Club Excellence Award, Kindness Matters Service Award and other international recognition opportunities.

Creative Leos can also explore initiatives such as the International Leo Day Video Contest, using storytelling to showcase their club, service and Leo experience to an international audience.

The lesson is simple:

Do excellent work locally but learn how to tell its story globally.

7

8

SERVE THROUGH GLOBAL PARTNERSHIPS

The wider Lions movement also creates opportunities to participate in established global humanitarian partnerships.

One example is the long-standing relationship between LCIF and Special Olympics, where Lions and Leos can contribute toward inclusion and opportunities for individuals with intellectual disabilities.

Experiences such as these allow a Leo to understand service from a much wider perspective not simply as a one-day project, but as part of an international movement addressing important human needs.

LEO DOESN'T HAVE TO END WHEN YOU BECOME A LION

One of the most exciting pathways begins when a Leo progresses into the Leo-Lion Program.

Eligible Leo-Lions can receive benefits such as reduced international dues, recognition of their years of Leo service and access to further networking and leadership opportunities within Lions.

But the pathway goes even further.

Leo-Lions can pursue international opportunities such as the Cultural Exchange Ambassador Scholarship and potentially aspire to positions such as the Leo-Lion Board Liaison, bringing the perspective of younger members into the international Lions leadership environment.

Your Leo years, therefore, do not have to be the end of the journey.

They can be the beginning.

THE OPPORTUNITY IS ALREADY IN YOUR HANDS

Sometimes we search far away for opportunities while overlooking the network we already belong to.

Leo can give you a place to volunteer.

But if you explore the movement deeply, it can also give you opportunities to travel, learn, lead, receive international exposure, access resources, build professional networks, represent young people globally and create service at a scale you may never have imagined.

The opportunities are there.

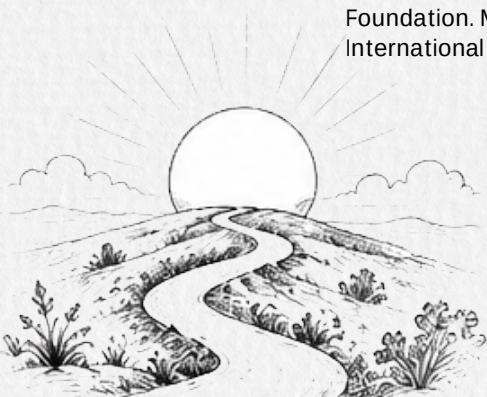

The question is whether we know about them and whether we are willing to reach for them.

So the next time you wear your Leo pin, remember:

It is more than a symbol of membership.

It could be your passport to the world.

Opportunities, eligibility criteria, funding availability and application timelines are subject to the current requirements of Lions Clubs International and Lions Clubs International Foundation. Members are encouraged to check the official Lions International resources before applying.
